Press release

**Biophytis to attend BIO-Europe in Munich**

**Paris (France) and Cambridge (Massachusetts, USA), November 06, 2023 – 07:00 am CET** – Biophytis SA (Nasdaq CM : BPTS, Euronext Growth Paris : ALBPS), ("Biophytis" or the "Company"), a clinical-stage biotechnology company specialized in the development of therapeutics that are aimed at slowing the degenerative processes associated with aging and improving functional outcomes for patients suffering from age-related neuromuscular and respiratory diseases, announces today that the company is attending the BIO-Europe conference which will be held in Munich, Germany, November 6<sup>th</sup> to 8<sup>th</sup> 2023. The conference will, as every year, bring together all the players in the pharmaceutical and biotech industries.

As part of the international development strategy for Sarconeos (BIO101) in the treatment of severe forms of Covid-19, sarcopenia and Duchenne muscular dystrophy, Edouard Bieth, Chief Business Officer of Biophytis, will meet pharmaceutical industry decision-makers to initiate co-development and commercialization partnerships for the company's drug candidate. Securing an R&D and commercialization partnership agreement is a strategic objective for Biophytis, in line with its ambition to rapidly bring its lead drug candidate Sarconeos (BIO101) to market in the US, Europe, Asia and South America.

**About BIO-Europe**

BIO-Europe convenes over 5,500 attendees, representing 60 countries and 2,220+ companies, making the event the industry's largest gathering of biopharma professionals in Europe. For more information, visit [www.informaconnect.com/bioeurope](http://www.informaconnect.com/bioeurope).

**About BIOPHYTIS**

Biophytis SA is a clinical-stage biotechnology company specializing in the development of drug candidates for age-related diseases. Sarconeos (BIO101), our lead drug candidate, is a small molecule in development for age-related neuromuscular (sarcopenia and Duchenne muscular dystrophy) and cardiorespiratory (Covid-19) diseases. Promising clinical results were obtained in the treatment of sarcopenia in an international phase 2 study, enabling the launch of a phase 3 study in this indication (SARA project). The safety and efficacy of Sarconeos (BIO101) in the treatment of severe COVID-19 were studied in a positive international phase 2-3 clinical trial (COVA project), enabling the preparation of conditional marketing authorization (CMA) applications in Europe and Emergency Use Authorization (EUA) applications in the United States. A pediatric formulation of Sarconeos (BIO101) is currently being developed for the treatment of Duchenne Muscular Dystrophy (DMD, MYODA project). The company is based in Paris, France, and Cambridge, Massachusetts. The Company's ordinary shares are listed on Euronext Growth (Ticker: ALBPS -ISIN: FR0012816825) and the ADSs (American Depositary Shares) are listed on Nasdaq Capital Market (Ticker BPTS - ISIN: US09076G1040).
